

FIELD INSPECTION OF ALL PARCELS IN LONG LAKE IS UNDER WAY

In May of 2008 the assessing department began a re-inspection project of all properties in Long Lake Township. This will involve a site visit to each property, taking updated exterior photo's of structures, and leaving a questionnaire for the property owner to fill out and return concerning the interior of their homes. With your cooperation we can have accurate data of your property and avoid errors in your property assessment. The project is scheduled to take another three summers to complete and assessing personnel will be in the field from mid-April through mid-September of each year weekdays during regular business hours. Ed Stevens is the person who is doing the field inspections this Summer. He will be driving the Long Lake Township truck with the Township logo on the side. He will also be wearing a picture identification badge. The southeast area of the Township has already been completed. Ed is currently working in the Northeast area of the Township from North Long Lake Road North to East Traverse Highway and from Gray Road westward. If you have any questions concerning this project please contact Angela Friske, Assessor, during regular business hours.
